

/media/erwan/T7/formation
/Video/LTM/util/include
/CodecApi.h

```
graph TD; A["/media/erwan/T7/formation  
/Video/LTM/util/include  
/CodecApi.h"] --> B["stdlib.h"]; A --> C["stdint.h"]
```

The diagram illustrates a file inclusion relationship. A top box contains the path to a header file, `/media/erwan/T7/formation/Video/LTM/util/include/CodecApi.h`. Two blue arrows point from this box to two separate boxes below it, labeled `stdlib.h` and `stdint.h`, indicating that `CodecApi.h` includes these two standard C library headers.
