

/media/erwan/T7/formation
/Video/LTM/encoder/include
/Compare.hpp

```
graph BT; A["/media/erwan/T7/formation  
/Video/LTM/encoder/src  
/Compare.cpp"] --> C["/media/erwan/T7/formation  
/Video/LTM/encoder/include  
/Compare.hpp"]; B["/media/erwan/T7/formation  
/Video/LTM/encoder/src  
/Encoder.cpp"] --> C;
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: /media/erwan/T7/formation/Video/LTM/encoder/include/Compare.hpp. Below it are two white boxes representing source files. The left box is /media/erwan/T7/formation/Video/LTM/encoder/src/Compare.cpp and the right box is /media/erwan/T7/formation/Video/LTM/encoder/src/Encoder.cpp. Blue arrows point from the top of each source file box to the bottom of the header file box, indicating that both source files include the header file.
