

/media/erwan/T7/formation
/Video/LTM/encoder/include
/Downsampling.hpp

```
graph BT; A["/media/erwan/T7/formation  
/Video/LTM/encoder/src  
/Downsampling.cpp"] --> C["/media/erwan/T7/formation  
/Video/LTM/encoder/include  
/Downsampling.hpp"]; B["/media/erwan/T7/formation  
/Video/LTM/encoder/src  
/FileEncoder.cpp"] --> C;
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: /media/erwan/T7/formation/Video/LTM/encoder/include/Downsampling.hpp. Below it are two white boxes representing source files. The left box is /media/erwan/T7/formation/Video/LTM/encoder/src/Downsampling.cpp, and the right box is /media/erwan/T7/formation/Video/LTM/encoder/src/FileEncoder.cpp. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
