

TVideoIOYuvMem::Writer

VideoIOYuvMem::Writer

Context

```
graph BT; Context[Context] --> TVideoIOYuvMem[TVideoIOYuvMem::Writer]; Context --> VideoIOYuvMem[VideoIOYuvMem::Writer];
```

The diagram illustrates a relationship where a central 'Context' object (represented by a grey box) is associated with two different 'Writer' classes (represented by white boxes with black borders). Two blue arrows originate from the 'Context' box and point towards the 'TVideoIOYuvMem::Writer' and 'VideoIOYuvMem::Writer' boxes, indicating that the context is used to manage or interact with these writers.
