

cxxopts::Options::parse
_positional

```
graph LR; A["cxxopts::Options::parse  
_positional"] --> B["cxxopts::Options::parse  
_positional"]; B --> B;
```

The diagram consists of two rectangular boxes. The left box is filled with a solid gray color and contains the text 'cxxopts::Options::parse' on the top line and '_positional' on the bottom line. A straight blue arrow points from the right side of this box to the left side of the right box. The right box is white with a black border and contains the same text: 'cxxopts::Options::parse' on the top line and '_positional' on the bottom line. A curved blue arrow starts from the top edge of the right box and points back down into the top edge of the same box, representing a self-call or a recursive step.
