

DecoderApp::get_base
_bitdepth

DecoderApp::get_colourspace

DecoderApp::push_base
_enhancement

DecoderApp::push_base
_enhancement

Ictm::Decoder::get
_configuration

```
graph LR; A[DecoderApp::get_base_bitdepth] --> D[Ictm::Decoder::get_configuration]; B[DecoderApp::get_colourspace] --> D; C[DecoderApp::push_base_enhancement] --> D; E[DecoderApp::push_base_enhancement] --> D;
```

The diagram illustrates a dependency or data flow where four methods from the DecoderApp class are used by the Ictm::Decoder::get_configuration method. The methods are arranged vertically on the left, and the target method is in a grey box on the right. Blue arrows point from each of the four DecoderApp methods to the Ictm::Decoder::get_configuration box.
