

vnova::utility::YUVDesc
::GetPlanePointers

vnova::utility::YUVDesc
::GetPlanePointers

vnova::utility::YUVDesc
::GetPlaneStridePixels

```
graph LR; A[vnova::utility::YUVDesc::GetPlanePointers] --> C[vnova::utility::YUVDesc::GetPlaneStridePixels]; B[vnova::utility::YUVDesc::GetPlanePointers] --> C;
```

The diagram illustrates a mapping or transformation. On the left, there are two identical boxes, each containing the text 'vnova::utility::YUVDesc::GetPlanePointers'. Blue arrows point from each of these boxes to a single box on the right. The box on the right is shaded gray and contains the text 'vnova::utility::YUVDesc::GetPlaneStridePixels'.
