

vtm::OutputBitstream
::countStartCodeEmulations

```
graph LR; A["vtm::OutputBitstream  
::countStartCodeEmulations"] --> B["vtm::OutputBitstream  
::getFIFO"]
```

A diagram showing a call from the `vtm::OutputBitstream::countStartCodeEmulations` function to the `vtm::OutputBitstream::getFIFO` function. The call is represented by a blue arrow pointing from the left box to the right box.

vtm::OutputBitstream
::getFIFO
