

vtm::HLSyntaxReader
::parsePPS

vtm::HLSyntaxReader
::parseSliceHeader

vtm::PPS::getNumTiles

```
graph LR; A[vtm::HLSyntaxReader::parsePPS] --> C[vtm::PPS::getNumTiles]; B[vtm::HLSyntaxReader::parseSliceHeader] --> C;
```

The diagram illustrates two function calls. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'vtm::HLSyntaxReader::parsePPS' and the bottom box contains 'vtm::HLSyntaxReader::parseSliceHeader'. On the right, a gray rectangular box contains the text 'vtm::PPS::getNumTiles'. Two blue arrows originate from the right side of the white boxes and point towards the left side of the gray box, indicating that both 'parsePPS' and 'parseSliceHeader' methods call the 'getNumTiles' function.
