The diagram illustrates a dependency or call relationship. Three source functions, each in a white box with a black border, are positioned on the left. Blue arrows point from each of these source functions to a single target function, 'vtm::PPS::getSubPic', which is located on the right and highlighted with a gray background and a black border. The source functions are 'vtm::CU::checkConformanceLRP' (top), 'vtm::Slice::isLastSliceIn Subpic' (middle), and 'vtm::HLSyntaxReader::parseSliceHeader' (bottom).
