

vtm::TU::isTSAllowed

vtm::HLSyntaxReader
::parseSliceHeader

vtm::HLSyntaxReader
::parseSPS

vtm::SPS::getTransformSkip
EnabledFlag

```
graph LR; A[vtm::TU::isTSAllowed] --> D[vtm::SPS::getTransformSkipEnabledFlag]; B[vtm::HLSyntaxReader::parseSliceHeader] --> D; C[vtm::HLSyntaxReader::parseSPS] --> D;
```

The diagram illustrates a dependency or data flow. On the left, there are three white rectangular boxes with black borders. The top box contains the text 'vtm::TU::isTSAllowed'. The middle box contains 'vtm::HLSyntaxReader' on the first line and '::parseSliceHeader' on the second line. The bottom box contains 'vtm::HLSyntaxReader' on the first line and '::parseSPS' on the second line. On the right, there is a single gray rectangular box with a black border, containing the text 'vtm::SPS::getTransformSkip' on the first line and 'EnabledFlag' on the second line. Three blue arrows originate from the right side of the three white boxes and point towards the left side of the gray box. The arrow from the top white box points to the top of the gray box. The arrow from the middle white box points to the middle of the gray box. The arrow from the bottom white box points to the bottom of the gray box.
