```

The diagram illustrates a dependency or relationship between three functions. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'vtm::Slice::checkConformance ForDRAP' and the bottom box contains 'vtm::Slice::isPocRestricted ByDRAP'. On the right, a gray rectangular box contains the text 'vtm::Slice::cvsHasPreviousDRAP'. Two blue arrows originate from the right side of the top and bottom white boxes, pointing towards the left side of the gray box, indicating that both functions on the left depend on or call the function on the right.
