

vtm::CU::checkConformanceLRP

vtm::Slice::checkSubpicType
Constraints

vtm::Slice::isLastSliceIn
Subpic

vtm::HLSyntaxReader
::parseSliceHeader

vtm::Slice::getSliceSubPicId

```
graph LR; A[vtm::CU::checkConformanceLRP] --> D[vtm::Slice::getSliceSubPicId]; B[vtm::Slice::checkSubpicType Constraints] --> D; C[vtm::Slice::isLastSliceIn Subpic] --> D; E[vtm::HLSyntaxReader::parseSliceHeader] --> D;
```

The diagram illustrates a dependency or call relationship. On the left, four white rectangular boxes with black borders contain the following text: 'vtm::CU::checkConformanceLRP', 'vtm::Slice::checkSubpicType Constraints', 'vtm::Slice::isLastSliceIn Subpic', and 'vtm::HLSyntaxReader::parseSliceHeader'. On the right, a single gray rectangular box with a black border contains the text 'vtm::Slice::getSliceSubPicId'. Four blue arrows originate from the right side of each white box and point towards the left side of the gray box, indicating that each of the four functions on the left calls or depends on the function on the right.
