The diagram illustrates a file dependency structure. At the top is a gray box containing the path to a header file: /media/erwan/T7/formation/Video/LTM/deps/cxxopts/include/cxxopts.hpp. Below this box are two white boxes. The left box contains the path to a source file: /media/erwan/T7/formation/Video/LTM/src/ModelDecoderApp.cpp. The right box contains the path to another source file: /media/erwan/T7/formation/Video/LTM/src/ModelEncoderApp.cpp. Two blue arrows point from the bottom of each source file box up to the header file box, indicating that both source files include the header file.
