

stresstest.run_test

stresstest.run_tests

stresstest.test_encode
_decode

```
graph LR; A[stresstest.run_test] --> C[stresstest.test_encode<br/>_decode]; B[stresstest.run_tests] --> C;
```

The diagram illustrates a functional dependency or call relationship. On the left, two white rectangular boxes with black borders contain the text 'stresstest.run_test' and 'stresstest.run_tests'. On the right, a larger gray rectangular box with a black border contains the text 'stresstest.test_encode' followed by '_decode' on a new line. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'stresstest.run_test' and 'stresstest.run_tests' call or utilize 'stresstest.test_encode_decode'.
