

vtm::CU::deriveBcwIdx

```
graph LR; A[vtm::CU::deriveBcwIdx] --> B[vtm::getBcwWeight]
```

The diagram illustrates a function call. On the left, a gray rectangular box contains the text 'vtm::CU::deriveBcwIdx'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. This white box contains the text 'vtm::getBcwWeight'. Both boxes have a thin black border.

vtm::getBcwWeight
