

vtm::TransformUnit
::checkTuNoResidual

vtm::CU::isSbtMode

vtm::CU::getSbtIdx

```
graph LR; A[vtm::TransformUnit::checkTuNoResidual] --> C[vtm::CU::getSbtIdx]; B[vtm::CU::isSbtMode] --> C;
```

The diagram illustrates two function calls on the left pointing to a single target function on the right. The first call, 'vtm::TransformUnit::checkTuNoResidual', is in a white box and points to the target with a blue arrow. The second call, 'vtm::CU::isSbtMode', is also in a white box and points to the same target with a blue arrow. The target function, 'vtm::CU::getSbtIdx', is located in a gray box on the right.
