

vtm::CU::getISPSplitDim

```
graph LR; A[vtm::CU::getISPSplitDim] --> B[vtm::CU::divideTuInRows]
```

A diagram showing a call from the function `vtm::CU::getISPSplitDim` to the function `vtm::CU::divideTuInRows`. The first function is in a grey box, and the second is in a white box. A blue arrow points from the first box to the second.

vtm::CU::divideTuInRows
