

vtm::CompArea::operator==

```
graph LR; A[vtm::CompArea::operator==] --> B[vtm::Position::operator==]; A --> C[vtm::Size::operator==];
```

The diagram illustrates a relationship between three code snippets. On the left, a grey rectangular box contains the text `vtm::CompArea::operator==`. Two blue arrows originate from the right side of this box. The top arrow points to a white rectangular box containing `vtm::Position::operator==`. The bottom arrow points to another white rectangular box containing `vtm::Size::operator==`. All boxes have a thin black border.

vtm::Position::operator==
