

vtm::CompArea::chanPos

vtm::CompArea::compPos

vtm::CompArea::chromaPos

```
graph LR; A[vtm::CompArea::chanPos] --> C[vtm::CompArea::chromaPos]; B[vtm::CompArea::compPos] --> C;
```

The diagram illustrates a mapping or inheritance relationship. On the left, there are two separate boxes: the top one contains 'vtm::CompArea::chanPos' and the bottom one contains 'vtm::CompArea::compPos'. On the right, there is a single, wider box containing 'vtm::CompArea::chromaPos'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the right box, indicating that both 'chanPos' and 'compPos' are associated with or mapped to 'chromaPos'.
